WELCOME

Oxford Journeys is a carefully curated programme of extraordinary educational travel adventures, created exclusively for Oxford and Cambridge alumni, along with their families and friends.

Our extensive range of journeys cater for all interests: from archaeology, architecture, art and astronomy, through to geology, history, ornithology, walking and wildlife. So whether you would like to unravel the mysteries of Persia, unearth the art and treasures of Dresden, explore the secrets of the Spice Islands or the wildlife and ecosystems of the Seychelles there is an Oxford Journey for everyone.

Expand your knowledge
The itinerary for each journey is put together in collaboration with a carefully selected academic, each one a leading expert in their respective field. They will accompany you on the journey, providing illuminating lectures and insights into your chosen destination.

Enjoy congenial company
We limit participant numbers for most trips to a maximum of 20, and our travellers always report that the lively exchanges and stimulating in-depth discussions with their travel companions make some of their most memorable moments.

Venture beyond the tourist trail
One of the most unique aspects of an Oxford Journey is that you venture far beyond the popular icons and tourist traps. Our trip scholars are able to provide exclusive admission to sites that are not usually open to the general public. With privileged access to private collections, houses, palaces, châteaus, monasteries and temples, this is a unique opportunity to venture beyond the realms of the conventional.

For more details on any journey and to book a trip, please contact the appropriate tour operator, whose details are listed at the bottom of each trip description.

Experience the ‘unchanged’ Russian north from the 16th and 17th centuries, with towns and cities such as Vologda, Belozersk, Kargopol, Solovki and Archangel, which prospered from the salt and timber trade with Europe. Today, they remain picturesque with fleets of white stone cathedrals and kremlins, while their many original and highly decorated wooden merchant's houses bear witness to the former prosperity of the region.
